

A close-up photograph of a person's hands. The left hand holds a dark grey smartphone, and the right hand holds a red credit card. The background is softly blurred, showing the person's light blue striped shirt.

MANAGE YOUR CARD SPENDING

right from your mobile device

MyCardRules is an easy-to-use feature on the SFB mobile app that lets you set card controls, add restrictions and receive transaction alerts.

How does MyCardRules let me manage my cards?

Just download the SFB app from Google Play™ or the App Store®. Then you can set a wide range of controls and alerts on all your cards. For example, you can:

- Turn your card on or off
- Set transaction spending limits based on your preferences, including dollar amount, transaction type and merchant type
- Get instant alerts on certain types of transactions, like when a transaction is declined

Alerts will show up just like any other notifications you get on your mobile device.

Why is it a better way to manage my cards?

Because you can manage your card transactions all in one place, right from your mobile device. You have complete control of how, when and where your card is used. Plus, knowing that you've set rules, restrictions and alerts that meet your specific spending preferences adds another layer of fraud detection and prevention, and gives you added peace of mind.

Is it secure?

Yes, managing your cards with MyCardRules is safe and secure. Your account is password protected and highly encrypted.

How do I get started?

After you download the SFB mobile app, scroll to the Card Management section. From this screen you can:

- Turn card controls on/off
- Set controls
- Manage alert preferences
- View recent transactions and more

Travel Reminder

Please remember to notify SFB Customer Service when you plan to travel outside of the state to ensure you have uninterrupted use of your card.
